CORE SKILLS

PHP / Laravel

MySQL / PostgreSQL

RESTful APIs / GraphQL

Docker / Kubernetes

Redis / Queues

AWS / CI-CD

TDD / PHPUnit

TECHNOLOGIES

Laravel 11 Livewire Inertia.js
Vue.js Elasticsearch RabbitMQ
Nginx Terraform Git PHPStan
Pest PHP Horizon

LANGUAGES

Arabic — Native

English — Professional (C1)

French — Conversational (B1)

CERTIFICATIONS

AWS Certified Developer – Associate (2023)

Laravel Certified Developer (2022)

Zend PHP Certified Engineer (2020)

Karim El-Masri

Senior Backend Engineer · PHP · Laravel · Scalable Systems

8+ years engineering high-throughput backend systems with PHP and Laravel. Specialised in API-first architecture, microservices, and event-driven design. Led migrations serving 50M+ requests/day, reduced latency by 62%, and mentored teams of 6-10 engineers at fintech and e-commerce scale-ups across MENA.

PROFESSIONAL EXPERIENCE

Senior Backend Engineer

Jan 2022 – Present

Paymob · Cairo, Egypt (Fintech / Payments)

- ▶ Architected a Laravel-based multi-tenant payment gateway processing EGP 2.4B/month across 60,000+ merchants.
- ▶ Redesigned queue infrastructure (Redis + Horizon) cutting payment callback failures from 3.1% to 0.04%.
- ▶ Built a GraphQL API layer consumed by 3 mobile apps and 2 SPA frontends; reduced over-fetching by 70%.
- ▶ Led a 5-engineer squad; introduced Pest PHP and achieved 91% test coverage across core payment flows.
- ▶ Containerised all services with Docker + K8s, enabling zero-downtime deployments via GitHub Actions CI/CD.

Backend Engineer (Mid → Senior)

Mar 2019 – Dec 2021

Noon.com · Dubai, UAE (E-commerce)

- ▶ Developed inventory microservice in Laravel handling 18M SKUs with Elasticsearch-powered search (sub-80ms p99).
- ▶ Migrated monolithic order system to event-driven architecture using RabbitMQ; throughput increased 4x.
- ▶ Implemented rate-limiting, API versioning, and OAuth 2.0 for third-party seller integrations.
- ▶ Mentored 4 junior engineers; introduced code-review culture and Laravel best-practice standards.

Junior PHP Developer

Jul 2017 – Feb 2019

ITWorx · Cairo, Egypt (Software Consulting)

- ▶ Delivered 7 client projects across healthcare and logistics verticals using Laravel + MySQL.
- ▶ Built RESTful API for Egyptian Ministry of Health patient portal serving 200,000 daily users.

NOTABLE PROJECTS

★ OpenCart-SaaS Platform

Multi-tenant SaaS e-commerce engine with custom subdomain routing, isolated DB per tenant, Stripe subscriptions. 300+ paying shops.

Laravel Livewire Stripe

⚠ Legacy Migration Tool

Internal CLI tool (artisan commands) for migrating 8M records from CodeIgniter 2 legacy system with zero data loss.

PHP 8.2 MySQL Artisan

♦ Real-time Notifications Hub

WebSocket broadcast server using Laravel Echo + Pusher alternative (Soketi), reducing push notification latency to <200ms.

Soketi Queues Redis

✗ Deprecated Monolith API

Original PHP 5.6 API — deprecated 2021 after microservices migration. Maintained backwards-compatible shim layer 6 months.

Legacy PHP 5.6

EDUCATION

B.Sc. Computer Science & Software Engineering

Cairo University — Faculty of Computers & Artificial Intelligence

2013 – 2017 · GPA 3.7 / 4.0 · Graduated with Distinction

NON-TECHNICAL EXPERIENCE

Technical Writer — Published 14 tutorials on Laravel internals on Medium (42K followers). Reviewed by Laravel News.

Open Source Contributor — 3 merged PRs to spatie/laravel-permission; 2 to barryvdh/laravel-debugbar.

Community Organiser — Co-founded Cairo Laravel Meetup (450+ members, 18 events).
